Q: Tech Integration

Our Essential Question

How can I answer
interview questions like this?

“How do you support technology integration in the classroom?”

What Am I Being Asked?

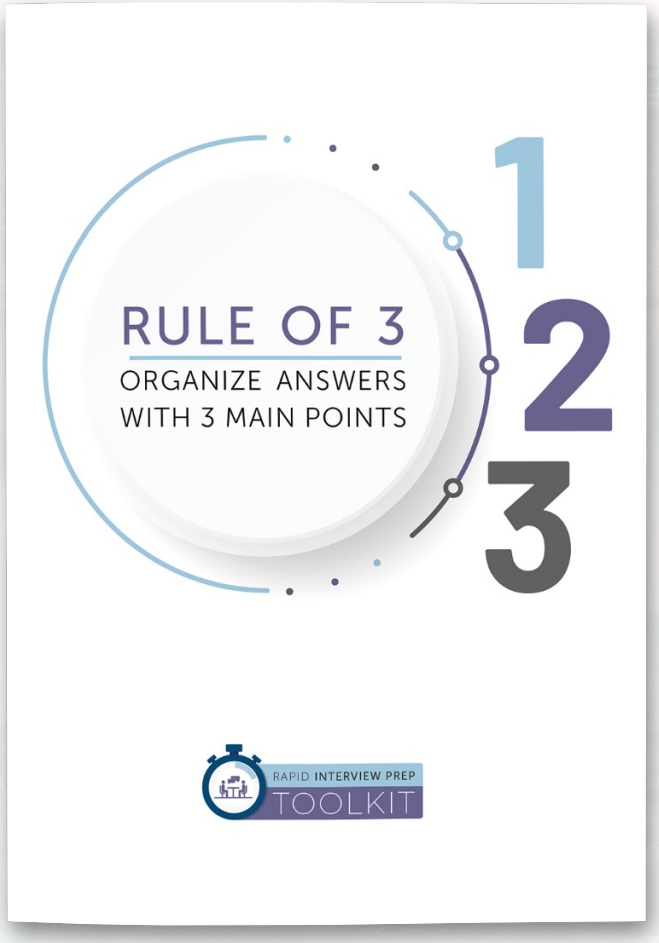
"How do you support technology integration in the classroom?"

- What you *do*, present-tense
- Implied: past experience & future intentions
- No specific scenario or examples

The Question(s) Behind The Question

- Are you relatively up to date on instructional technology? A.I., not clickers?
- Are you overly obsessed with technology?
- Do you understand what resources are available to us?
- Will you help us achieve our goals, not yours?

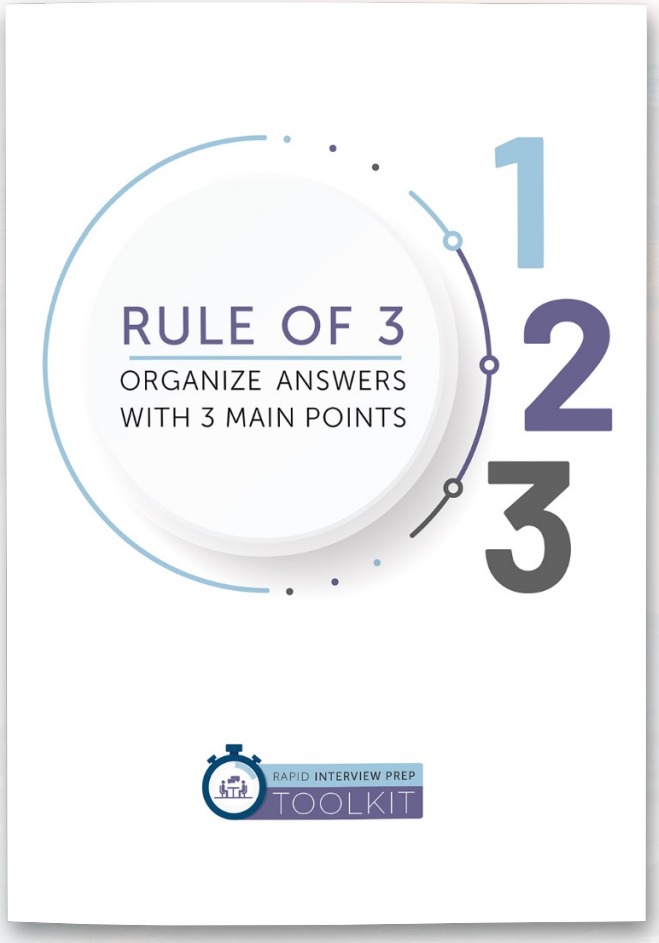
The Rule of 3—Recommendations: Technology Integration



3 Principles:

- Start with standards/objectives
- Plan learning experiences
- Use technology to enhance

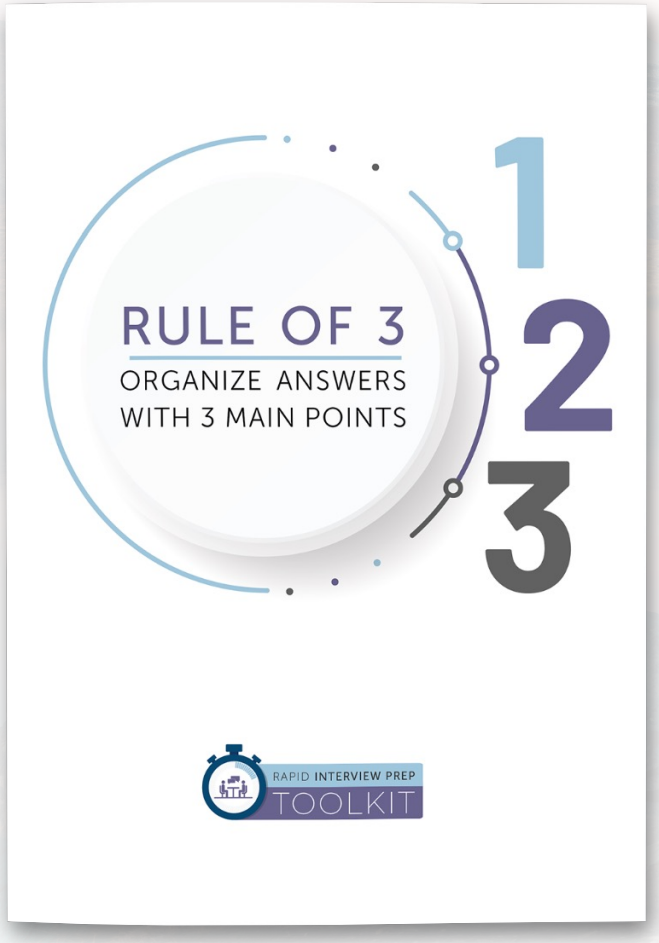
The Rule of 3—Recommendations: Technology Integration



3 Actions:

- Make sure people have the tech they need
- Make sure people have the training they need
- Keep it up to date & working

The Rule of 3—Recommendations: Technology Integration



3 Priorities:

- Academic impact
- High-tech advantage
- Cost effectiveness
