EPISODE 247

# Classroom Walkthroughs Late In The School Year

#### **Essential Question**

How can I finish the year strong and continue visiting classrooms through the end of the school year?

## 10. Don't Worry About Feedback

- You won't always have something valuable to say
- Conversations will be more meaningful if you limit them to times you actually do have good feedback to share
- Show interest and ask genuine questions

#### 9. Focus On Your Caseload

- Visit only the teachers you evaluate
- Let other admin visit the teachers they evaluate
- Typical number: 20-30 teachers → 10-day rotation

## 8. Streamline Observation Types

Formals Walkthroughs Spot Checks

Admins Minis Learning Walks

- Eliminate multiple kinds of visits, other than formal observations and informal walkthroughs
- Eliminate documentation other than date/time

#### 7. Eliminate Written Feedback

- Formals: low-inference notes only
- Walkthroughs: document date/time only
- Save feedback for face-to-face conversation

## 6. Use "Next Up" in Repertoire

- Take a photo
- Leave original for teacher
